

DEVELOPING A PURPOSEFUL HIRING TO TERMINATION PROCESS

Build intentional, people-first systems that align with your company's mission, vision, and values.

FULL PROGRAM OVERVIEW

This interactive program guides you through the full employee lifecycle—from hiring and onboarding to retention and termination/succession—using a values-aligned, people-first approach. Through four focused segments, you'll walk away with the templates, tools, and confidence you need to build repeatable systems that align with your mission, vision, and values.

You'll do the hands-on building, and we'll teach, guide, and provide the templates and structure you need to make it your own. We do not complete documentation for you or provide legal/compliance guidance.

WHO THIS PROGRAM IS FOR

This program is for anyone responsible for your team (HR, operations, or leadership), whether you're starting from scratch or strengthening existing systems.

Note: Because this program is built around aligning your processes with your mission, vision, and values, your organization must have those defined before we can get started. If you don't currently have those defined, ask us about our *Mission, Vision, and Values Creation Program*.
